

TITLE: A MOBILE APPLICATION STREAMLINING LOAN APPLICATION FOR SMALL-SCALE TEA FARMERS UNDER THE KENYA TEA DEVELOPMENT AGENCY.

Description

This Android application aims to revolutionize the loan application process for small-scale tea farmers associated with the Kenya Tea Development Agency (KTDA). By leveraging mobile technology, the app simplifies and automates the loan application procedure, ensuring quicker access to financial support for farmers in need.

In Scope/Features:

1. Loan Application Automation: Farmers can apply for loans directly through the app, reducing paperwork and processing time.
2. User Profiles: Farmers can create and manage their profiles, providing essential details for loan eligibility.
3. Tender Advertisement Module: Access to available tenders from the KTDA, facilitating participation in procurement opportunities.
4. News and Events Section: Updates on industry news, events, and workshops relevant to tea farming.

Out of Scope:

1. Tracking of Applied Loans: The app will not initially include features for tracking on loan applications. Future updates may consider incorporating these functionalities.

Author/Version History:

Author: NYAMWEYA BRIAN SURE

Version 1.0 (Current Version)
